Camp Philosophy

Our mission is to provide students with a tennis experience that maximizes performance and increases enjoyment of the game. To accomplish this, we provide a high-energy learning environment that is safe, positive, and most of all, fun! At the Chippewa Club Elite Tennis Camp, you will be immersed in college-style practices that will challenge you both physically and mentally, preparing you for your career ahead. During 5 days of intensive training, you will receive PERSONAL COACHING modeled around your specific game style—studying posture and balance, court position options, and point progression, all within a tactical framework. With daily match play opportunities, you will be able to test what you have learned in a competitive context. The Chippewa Club Elite Tennis Camp directors will provide a curriculum that brings together stroke production and analysis, drill progressions, strategy, and sports science.
